

# After the Makeover: Being a woman can get real in a big hurry...

Amanda Hawkins

Your male-to-female makeover is just about done, Rudy. No one will ever guess you were a regular guy when you walked in here this morning. How's it feel to be such a lovely girl for the first time?

Oh, this feels amazing. It really does. Ever since I was eight years old and my mom dressed me up as Ariel, I've dreamed of looking into the mirror and seeing a gorgeous redhead staring back. Now that I can, I'm over the moon. I could not be happier... My name's Ruby now, by the way. That's what my sister's been calling me for the last twenty years.

It's a huge bonus to turn out as pretty as I did. My sister's nice-looking and all, but now I'm a lot sexier than she is, and it's just gonna kill her to see me looking so gorgeous. I can't thank you enough, Pam.

As for my plans... obviously, I want to be as much of a real girl as I can. And yeah, that means scoring with guys. I'm so looking forward to getting kissed, and all the stuff that comes after. I'll go down on a man, swallow... you name it.

A girl I know at work owns one of those new Mesmerizer gizmos. I'm not sure if it's a great idea, but I might get her to hypnotize me into believing I'm a woman. That'd be so kewl, wouldn't it? Then I could just relax and be female and not have to fib about it... It'd be like having my cake and eating it too!

I'm curious... what are you planning to do with yourself, now that you're effectively female for the next six or seven months? Got any particular fantasy or itch you need to scratch?
