Super Girl! This is what happens when your sister is cute... *Amanda Hawkins*

Hey, Trevor... It's me, Eli. Check it out: I'm Supergirl!! The spell actually worked. I took over my sister's body, right in the middle of ComicCon. Can you believe it? I didn't even know she was into this stuff. Anyway, being a cute girl is awesome. Guys are hitting on me like every three seconds. Some of them aren't bad-looking either. If I wasn't straight and a dude I'd be spoiled for choice.

Yeah, the spell worked, I know... Sarah's here, in your body. At least she was. She was super-pissed, bro. Before I could say anything, she grabbed the scroll, punched me in the face and took off. I dunno, maybe she thought she could come find you and force you to swap back right away. But the thing is--

Huh? Why would she need to find me? If she's got the scroll, all she has to do is read the spell again, with the names reversed, and we'd switch back. She doesn't have to be anywhere near here. She knows that, doesn't she?

I tried to tell her, I really did. I shouted out my window at her while she was getting into your car, out front. She told me to go fuck myself... She said she knows how this magic stuff works: destroying the scroll breaks the spell. So she fired up the lighter you always carry, even though you don't smoke---and then she torched the damn thing.

WHAT? But... without the scroll, how am I gonna---

Uh, yeah... long story short, you're not. Unless we happen to stumble across another copy of that ancient and incredibly rare spell, you are gonna be stuck right where you are, my friend. I guess you'll just have to get used to being Sarah.

Oh my god! I can't believe this is happening... I only wanted a taste of being a girl, not a whole lifetime.

Ye-ahhh, that's rough. But look on the bright side. Your sister is hot, right? You and I get along pretty good... so maybe we could, ya know... hang out?
